Sir,

I have the honour to submit for sanction an Estimate for (from the Durgamba Fund) Rs: 2700/- being the probable cost of repairing and improving the Temple of Hanikaleswara at Hanikan, and to state that the provisions made therein meet nearly all the valuable suggestions made by you during your inspection of the Temple in August last.

2. This Temple is a work of rare architectural excellence and the deity installed therein is held in great veneration not only by the inhabitants of this District but also by people from other

other Districts as well as persons out-
-side the Province. It has greatly
suffered from long neglect
and should, in my humble
opinion be taken in hand as
early as practicable.

3. The steps leading to the
piers from the Southern passage
are out of order, and have
to be repaired. I propose
also to widen them as they are
at present very narrow. In
the grade angle are situate two
unsightly temples with the deities
Anjanaiya and Eeswara
housed therein. I propose to
dismantle these buildings and
to make room for the deities
in question in the plat forms
on either side of the Southern
passage. Provision has
accordingly been made for
the alterations thus rendered
necessary as also for certain
ornamental repairs to the aforesaid
passage. The main building
is ill ventilated and almost
dark. The heavy unsightly and

Wicketty

picketty doors on either side of it will be replaced by teak-wood shutters with spiked iron bars so as to let in more light and air. The interior of the main building has to be thoroughly cleaned and the leakages in the roof thereof stopped. Bowers have sprung up most irregularly on all the four sides of the Temple. The open space between them and the Temple is in some places very small. I propose to acquire and cut off a portion of those bowers and to extend the open space surrounding the Temple. Four ornamental Lamp-posts, one on each side of the Temple, are also necessary. The present passage is not only in a state of dis-repair but also very low and unsightly. Steps will be taken to raise and otherwise improve the same. No total removal seems undesirable. On special occasions, pending on a large scale for

on

on in the Temple. This requires
a capacious Kitchen partitioned
into two halves, one for Smarthas
and the other for Vaishnavas.
Two good rooms detached from
the Temple and at the same time
within convenient distance of it
are thus indispensable, besides
a third room for the storage
of Vessels, Vahanams &c. The
present titled addition to the temple
is not only out of order, but
is wholly out of place and
has to be pulled down. Hence
the provision made in the Estimate
for a strong substantial and
neat building consisting of
three rooms (Vide accompany-
-ing Sketch). I have thus ex-
-plained nearly all the items
mentioned in the Estimate.
4. The road leading to the
Temple is higher than the temple
premises. Steps are being
taken by the Municipality not
only to lower it but also to
open one or two other approaches,
and to improve the surroundings.
5. The enclosed Estimate has
been

been prepared under my personal direction and with the utmost possible care. The cost mentioned in it cannot be reduced without leaving out important items demanding early attention. Under these circumstances, I request the favor of sanction being accorded to the outlay proposed therein.

I have the honorable
Sir
Your most obedient Servant
E Greenwood
Deputy Commissioner.

The Dy Comr reports
that the temple of Hari-
hareswara at Harihar
is a work of rare
architectural excellence
and the deity installed

therein is held in great veneration by the public, that it is in need of urgent repairs, and that it has no sufficient funds at its credit.

2. Under the above circumstances the Govt are pleased to sanction the estimate now submitted for Rs 2700 and direct the cost be met as specified below:—

Rs 1700 - from the Inuzuai Surplus Funds now available at the credit of the Chitaldrug Dt

Rs 1000 - from the amount now available at the

credit of the said Dt.
under ---- "Receipts of Temple

Rs 2700

3. The work should be carried out substantially under the superintendence of the Deputy Commissioner, who should see that all the items of work provided for in the Estimate are properly executed and a completion report submitted in due course

Sir

With reference to
previous correspondence noted
in the margin, I have the
honor to submit a revised
Estimate for repairing and
improving the Harihareswar
temple at Harihar amounting
to Rs 3899 and request that
the sanction of Government
may be obtained for it

2 The revised estimate

[illegible]

[illegible]

The principal items [illegible] are as follows for building [illegible] the main building with stone, in order that it may be in keeping with the main building and its surroundings, for the Chaplain's Quarters for which on account of the unsatisfactory nature of subsoil the foundations have had to be dug and built up to a greater depth than was originally provided, for a Verandah

for the Chaturam and for the Northern mantap which was improved in accordance with instructions personally given by Mr. Swaminadaiengar

4. I inspected the work more than once and checked some of the measurements of work actually done. I am of opinion that it is absolutely necessary to carry out the work in accordance with the revised Estimate

5 An estimate for Rs. 1140 has been sanctioned from Municipal Funds for the formation and gravelling of the roads on the four sides of the main temple and the work is in progress.

6 I beg to the favor of early orders passed on the subject

work as soon as possible

7 I request to say that there are no surplus Funds under any head from which the extra cost now proposed to be incurred can be met. I therefore beg to recommend that it be met from the Provincial Grant for repairs of important religious institutions
